**Re: Upcoming BC Hydro open houses**

BC Hydro has been requested to supply power to Woodfibre LNG's proposed liquefied natural gas (LNG) processing and export facility near Squamish, and FortisBC's expanded Coquitlam and new Squamish compressor stations. The map on the next page shows a high-level overview of the BC Hydro electricity system and the proposed Woodfibre LNG and FortisBC facilities. Please note that if the proposed Woodfibre LNG facility is not built, there will be no electricity system upgrades required at this time.

We invite you to learn more about how we plan to supply power to Woodfibre LNG and FortisBC at one of our three open houses. BC Hydro representatives will be on hand to discuss our potential electricity system upgrades. We look forward to seeing you there.

**Gibsons Open House**

*Date:* Tuesday, March 17, 2015

*Time:* Drop-in anytime between 5 to 8 p.m.

*Location:* Gibsons & Area Community Centre, 700 Park Road, Gibsons, B.C.
